The UK Teleradiology Market : Coverage

Scope of the Report

Attributes	Details
Title	The UK Teleradiology Market: Size, Trends & Forecasts (2018-2022)
Coverage	The UK
Market Influencing Variables	Growth Drivers, Challenges, Market Trends
Forecast Period of Market	2018-2022
Competition in the Market	Dominated
Key Players	Medica Group, Everlight Radiology (RRO), Unilabs (Telemedicine Clinic) and Synova Capital (4ways Healthcare)

The UK Teleradiology Market

Executive Summary

Radiology is that field of medical science where radiant energies are applied for diagnosis and treatment of diseases. There are two areas of radiology i.e., diagnostic radiology (field of medicine using non-invasive imaging scans for a patient's diagnoses) and interventional radiology (provides minimally invasive image-guided diagnosis and treatment of disease).

There are various techniques which are applied in radiology such as projection (plain) radiology, fluoroscopy, computed tomography (CT), ultrasound, magnetic resonance imaging, etc. All these categories are used for different purposes and different types of cases.

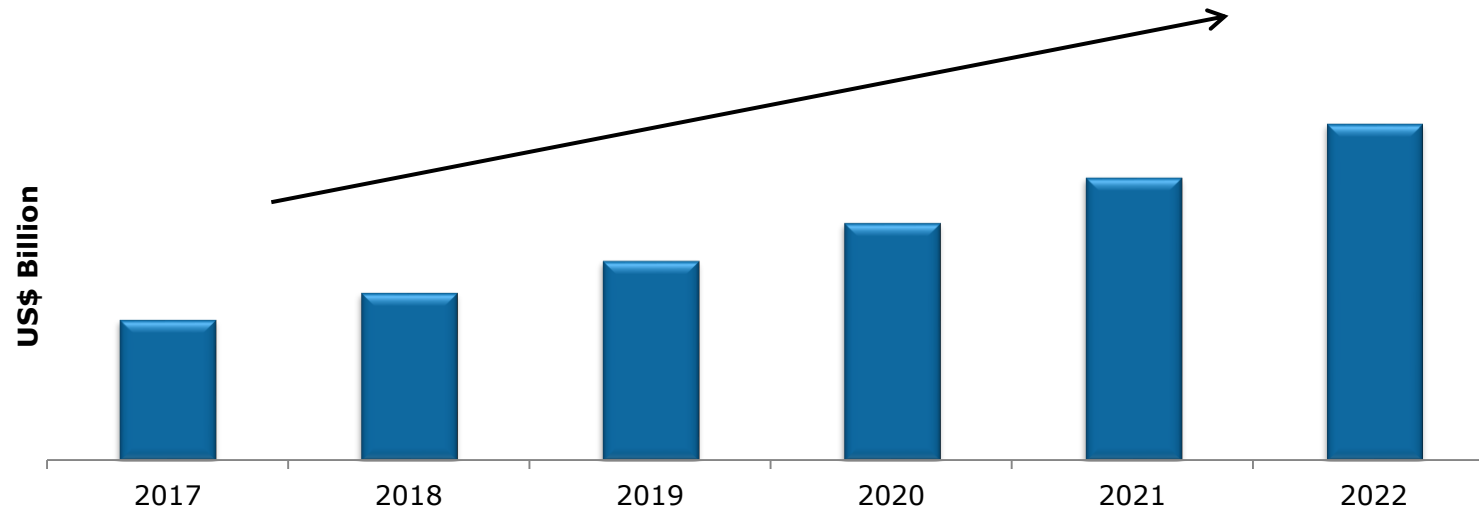

With the help of Teleradiology, radiologists are able to decipher any scan and image like x-ray while residing in another location. The practice of teleradiology is gaining popularity among the hospitals and clinics as it is less expensive comparative to hiring staff and training them. Teleradiology is used for various purposes such as for imaging studies in hospitals, for research studies, for teaching, and as accumulating second opinion of images.

Teleradiology works in three steps, first step is recording and sending the images (scans) via an image centre, second is proper and smooth transmission of images are done and last step is the receiving and decoding of the image at the receivers end. There are many advantages of implying teleradiology such as cost efficiency, convenient, availability for 24*7, faster transmission, etc. But there are few disadvantages too such as heavy reliance on internet connectivity, privacy concerns, miscommunication, etc.

The UK teleradiology market is expected to increase at high growth rates during the forecasted period (2018-2022). The UK teleradiology market is supported by various growth drivers, such as growing scan and diagnosis demand, increasing penetration of teleradiology, increasing consultant radiologists, etc. yet, the market faces certain challenges, such as, increasing workload, backlog of unreported scans, etc. few new market trends are also provided such as, increasing proportion of female radiologist, etc.

Teleradiology Market : Global Analysis

Global Teleradiology Market by Value

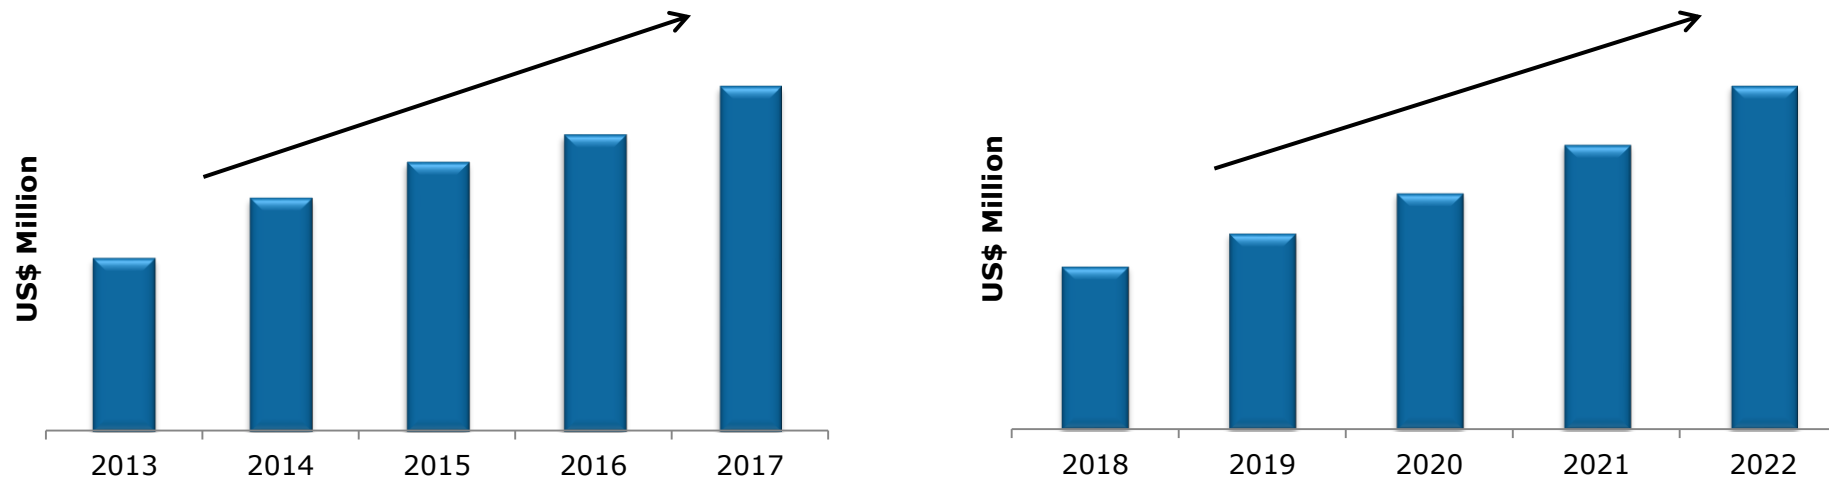

CAGRs	
2018-2022	xx%

Global teleradiology market value was US\$... billion in 2017. Global teleradiology market is anticipated to rise up to US\$... billion by 2022 as compared to US\$...billion in 2018, representing a CAGR of% over the years 2018 to 2022.

The UK Teleradiology Market : An Analysis

The UK Teleradiology Market by Value

CAGRs	
2018-2022	xx%

The UK teleradiology market value was US\$... million in 2017. The UK teleradiology market is anticipated to rise up to US\$... million by 2022 as compared to US\$...million in 2018, representing a CAGR of% over the years 2018 to 2022.

The UK Teleradiology Market : An Analysis

The UK Teleradiology Market Value by Segment; 2017

The UK Outsourced Teleradiology Market Volume by Segments; 2017

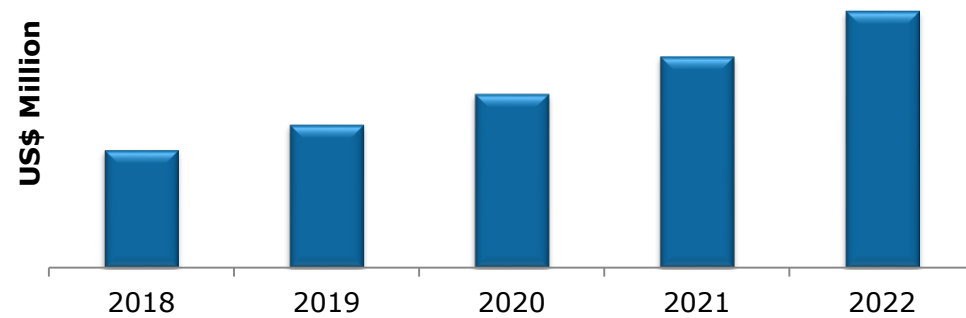

The UK Teleradiology Market Volume by Segment; 2017

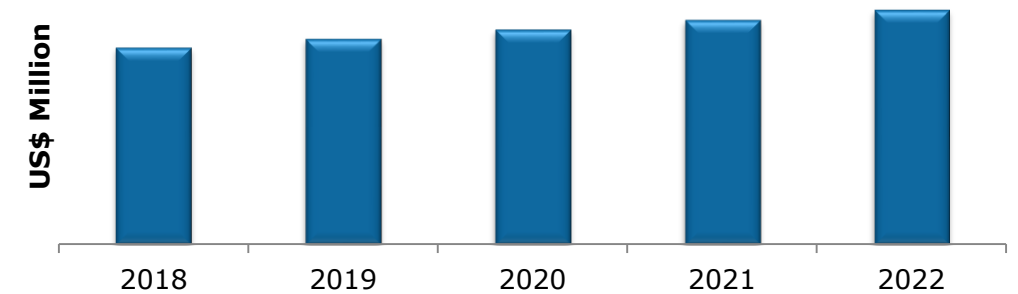

The UK Teleradiology Market : Segment Analysis

The UK Teleradiology Cross Sectional Market by Value; 2018-2022

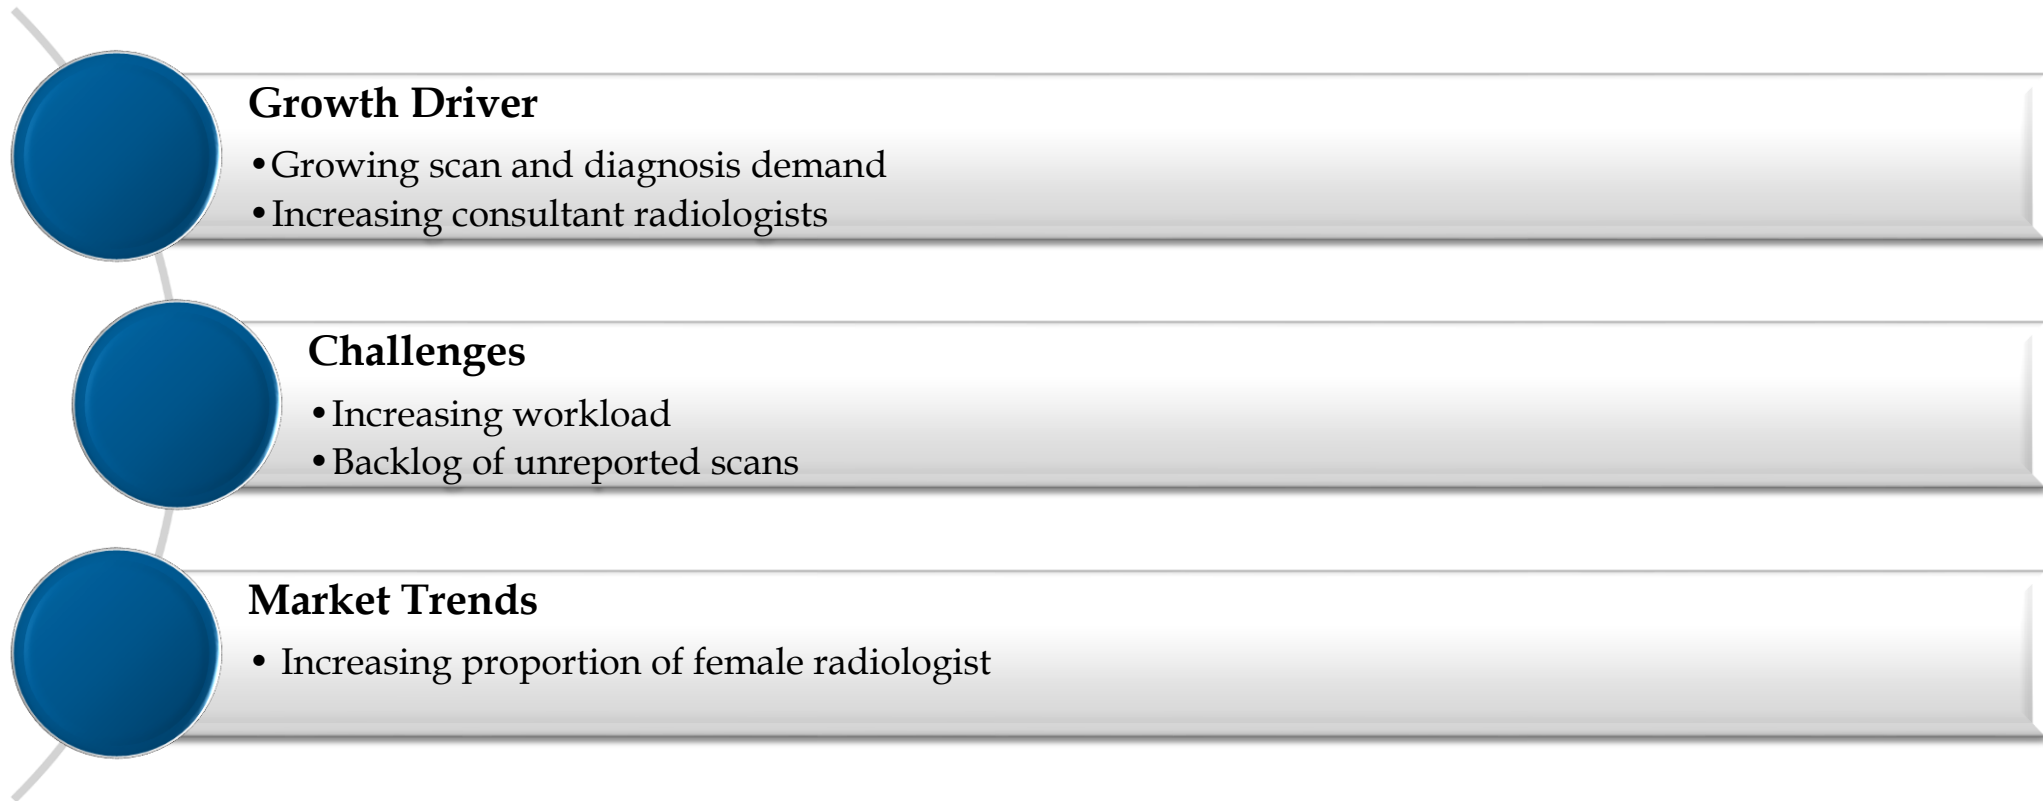

The UK Teleradiology X-Ray Market by Value; 2018-2022

Segments	CAGR	
	2013-2017	2018-2022
Cross-Sectional	xx%	xx%
X-Ray	xx%	xx%
